## Studio 3 Software

Stryker's Studio 3 provides a centralized storage solution for the archiving and management of surgical videos / images. The Studio 3 software makes it easy for users to archive, edit, and share surgical media from an intuitive browser-based user interface. Whether creating an educational presentation, sharing surgical footage with a patient, or sending a referring physician a link to view a procedure, Stryker's Studio 3 maximizes the utility of stored surgical assets.
