

## Breast Augmentation Vest Bra

The Breast Augmentation Surgery Bra Style 958® has dominated against all its competitors as the #1 post surgical bra available on the market. While its primary job is to aid in the recovery of breast augmentation (implants), reduction, reconstruction, & mastectomy, it also cornered the thoracic, oncology and general surgery department as well. Now this item is available to all MD's Surgery Centers & Hospitals at wholesale and net terms available, free samples.
