

DriFloor Absorbent Pad

Published on Surgical Products (<http://www.surgicalproductsmag.com>)

DriFloor Absorbent Pad

Sandel's DriFloor™ Absorbent Pad helps prevent debilitating slips and falls. Composed of a highly-absorbent material, it reduces cross-contamination by eliminating the common use of blankets and towels on the floor, and significantly decreases clean-up and turnover time. Although designed for the floor, the pad can be used wherever fluids accumulate on the floor.
