

## Reusable Sharps System

Daniels is committed to developing the safest, environmentally friendly products and services available in order to make healthcare safer for workers and patients around the world, and to reduce risk for healthcare organizations.

Daniels provides a fully integrated and technologically advanced system for the reduction of risk and improvement of sharps, medical and pharmaceutical waste management throughout your facility, proven in clinical studies to reduce Needle Stick Injuries.

The Daniels Sharpsmart reusable sharps system reduces waste (plastic and cardboard) by up to 4 tons per 100 hospital bed (compared with a disposable system). A recent study at Northwestern Hospital, Chicago, the Sharpsmart system significantly reduced CO2 emissions by up to 16 tons per 100 beds. In addition to waste reductions, the Sharpsmart system also significantly reduces Sharps Injuries. A recent 28 hospital study in the American Journal of Infection control showed an 82 percent reduction in Sharps Injuries.
