

Specialty AkroBins Available In New Colors

Akro-Mils, a North American leader in storage, organization and transport products, announces the expansion of its AkroBins® line with the addition of four new colors: Berry, Light Blue, Purple and Teal. The new specialty colors are available in nine AkroBin models: 30210, 30220, 30224, 30230, 30234, 30235, 30239, 30240 and 30250.

The industry standard for storage bins, AkroBins help control inventories, shorten assembly times and minimize parts handling. Molded of high-impact polypropylene, AkroBins are unaffected by weak acids and alkalis. Its sturdy, one-piece construction is water, rust and corrosion-proof.

The four new AkroBin colors — created in response to customer requests for additional color options — are ideal for 5S Lean, Color Coding and other productivity initiatives.
