Stallion Headlamps

Stallion Headlamps from Bryton Corp. are surgical light sources that can provide light consistently for up to 9 hours. According to the company, the technology uses minimal energy and produces zero heat, giving surgeons the freedom to move during a procedure with ease and comfort. The system's cordless design also contributes to safety for the whole surgical team by removing the possible dangers that come with fiber optic cables. The system includes:

- Stallion Headlamp System
- Aluminum Carry Case
- 2 x Li-ion Batteries
- Battery Charger with power cord
- 2.0x Magnifying Lens with case
