

RealView Workflow

STERIS RealView transforms perioperative departments into high performance workflow environments, creating seamless visibility, communications and real time situational awareness. RealView eliminates hundreds of phone calls a day, increases OR utilization, case volume and throughput.

RealView provides OR Managers and Administrators with high visibility dashboards and real time data based upon Key Performance Indicators (KPIs) that matter most to the hospital's perioperative department. Chief among these priority and immediately measurable KPIs are:

- First Time Case Starts
- On-Time Starts Trend
- On-Time Starts Throughout the Day
- Scheduled vs. Actual Status
- Prime Time Utilization
- Surgeon Turn Around Time

RealView PeriOperative Solutions provide:

- Real time visibility and communications
- Greater OR workflows, utilization and throughput
- Increased case volumes and revenue
- Improved OR Scheduling Predictability
- Increased OR Staff Satisfaction
- Improved Patient/Family Satisfaction & HCAHPS Scores
