

Surgical Instrument Repair, Sharpening and Restoration

Spectrum Surgical Instruments Corp. provides complete surgical instrument repair, sharpening and restoration services. Any make, any type or any model of surgical instrument can be completely refurbished in Spectrum's state-of-the-art repair lab or via the company's on-location instrument repair services. Spectrum is a national GPO contracted vendor and offers the guaranteed lowest-cost repair pricing in the industry— at savings of up to 30 to 50 percent. In addition, Spectrum services all makes and models of power equipment and offers free evaluations for mail-in power equipment repair. Open 7 days per week, 365 days per year, Spectrum provides fast turn-around and emergency service.

For more information, please contact a Spectrum Customer Care Representative at 800-444-5644.
