

## STERRAD NX System

 **STERRAD<sup>®</sup> NX<sup>™</sup>**

The STERRAD<sup>®</sup> NX<sup>™</sup> System from Advanced Sterilization Products is a fast low-temperature hydrogen peroxide gas plasma sterilizer. It offers a 28-minute cycle for most general surgical instruments and a 38-minute cycle for single-channel flexible endoscopes. The compact size and rapid instrument turn around make the STERRAD NX System ideal for operating rooms and surgery centers.
