

# Hydrogen Peroxide Disinfectant Wipes And Spray

Clorox Professional Products Company has announced the introduction of Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes and Spray, a new line of ready-to-use, one-step cleaner disinfectants engineered with a patented activated hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) formula. These activated hydrogen peroxide products are registered by the U.S. Environmental Protection Agency (EPA) to kill 32 bacteria and viruses in 30-seconds to one minute, the fastest non-bleach contact time available. Clorox Healthcare™ Hydrogen Peroxide products are noncorrosive, compatible with many healthcare surfaces and medical equipment and are recommended for daily surface disinfection facility-wide. Bleach is also recommended for daily disinfection and is particularly important for dealing with C. difficile infections. The new activated hydrogen peroxide products complement Clorox's bleach and quaternary-based portfolio of healthcare products.
