

## Surgical And Exam Lights

Skytron's Nautilus LED series fixed focus light is designed to give the surgeon intensity of up to 160,000 lux of cool, color correct, shadow free light in a simple design with no non-essential electronics or moving parts. The Nautilus LED surgical light is a cost effective, high performing, reliable alternative to halogen lights and for users who do not require additional features. Nautilus LED lights come in single, dual, and triple configurations and can be combined with monitor arms and Skytron's exclusive Ergon equipment management system.
