

YUNO OTN Surgical Table

MAQUET's multi-purpose YUNO OTN mobile operating table is designed for orthopedic, traumatology and neurosurgery interventions. Engineered with modular components, the YUNO can be configured quickly and easily for a variety of procedures, which enables surgical teams to rapidly respond to changing situations, thereby saving time and costs. YUNO offers surgeons exceptional stability, superior radiotranslucency and simplified ergonomic design for precise patient positioning and optimal access to the surgical site. It safely supports up to 1,000 lbs.
