Laundry Hamper

EDGECO'S laundry hamper corrals soiled linens, diapers, sheets, towels, gowns and other goods inside. It opens with an foot pedal for hand-free, no-contact access and its lid snaps shut. Any odors are sealed inside to prevent their escape into the air. When the bag liner inside is full it is removed through a clever, ergonomic door in its side rather than at the top to reduce heavy lifting. Overall height 35 inches and it comes in a variety of colors.
