

## **BNX Fine Needle Aspiration Platform**

Beacon Endoscopic Inc. has announced the limited market launch of the BNX™ System, its novel fine needle aspiration platform for use in endoscopic ultrasound (EUS) and endoscopic bronchial ultrasound. The BNX™ System incorporates a delivery system that easily loads and unloads low cost, high performance FNA needles of varying sizes. Another important feature of the BNX design is that it automatically sheaths all needles with a shield during needle removal.
