

## DuraBlue WrapWith Ethylene Oxide

Cardinal Health has announced Food and Drug Administration (FDA) clearance (K120542) for use of its DuraBlue™ Sterilization Wrap with Ethylene Oxide sterilizers. With this latest clearance, DuraBlue Sterilization Wrap is FDA cleared for use with the most sterilization modalities of any sterilization wrap in the U.S. market. DuraBlue Sterilization Wrap is made with non-woven, polypropylene SMS technology for strength, durability and microbial protection. DuraBlue Sterilization Wrap is available in six color-coded basis weight models, providing durable protection for everything from lightweight linen packs to heavy instrument trays weighing up to 25 pounds. The wrap also is available in 14 sizes ranging from 12 inches by 12 inches to 54 inches by 90 inches.
