

Surgical Face Mask

The Tronex Company's Premium Surgical Face Mask With Ties is entirely constructed of a soft, breathable, fluid-resistant, three-ply polypropylene spunbond (PPSB) material. The full-PPSB construction of the Tronex mask incorporates multi-row ultrasonic edge bonding and a full-length malleable nosepiece, ensuring maximum comfort, a customized fit, and durability for long procedures. The Tronex Premium Surgical Face Mask With Ties offers high fluid resistance, greater than 99 percent particle filtration efficiency (PFE), and greater than 99 percent bacterial filtration efficiency (BFE).
