

Biomask

Medline's BioMask uses three natural and safe ingredients (citric acid, copper and zinc) to effectively eliminate viruses on the inside and outside surfaces within five minutes. The Biomask inactivates viruses – going beyond just filtering them out, by using two active layers to destroy viruses on contact, leaving a safe and clean mask after exposure to pathogens. The technology of BioMask eliminates 99.99 percent of 15 strains of Influenza A and B within 5 minutes.
