

IRiS

Medline introduces the IRiS (Intelligent Room Sterilization), an UVC (ultraviolet C) light disinfection system used to compliment healthcare facilities current cleaning procedures to ensure that all surfaces are free from pathogens. IRiS offer UVS field balancing, sensing technology utilized for all rooms to receive the appropriate amount of UVC, and tracking/documenting via the unique Steri-Trak Service Documentation system. With enhanced power output, IRiS also reaches all direct, indirect, and shadowed surfaces. The IRiS is manufactured by Infection Prevention Technologies and distributed by Medline.
