

Surgical Platform

Ethos Surgical, LLC introduces an ergonomic surgical platform that is designed to reduce the sources of stress, fatigue, pain and injury resulting from repeatedly performing laparoscopic surgeries. The Ethos Surgical Platform provides an ergonomic environment for laparoscopic surgeons during procedures. Not only does the Ethos Surgical Platform place the surgeon's head, arms, hands and instruments in proper ergonomic alignment with the surgical field and monitor, being above the patient's midline optimizes instrument triangulation. Controls allow for all adjustments.
