## Model 1400 Surgical Headlight

Cool-View's Model 1400 is one of the first surgical and medical exam lights offered worldwide that features energy-efficient Light Emitting Diodes (LEDs) as opposed to halogen or xenon lamps. The new lights do not require bulb or fiber-optic cable replacement and produce bright, white light with a color temperature of 6,500°K, matching natural daylight. Cool-View's patented technology provides caregivers with a superior light that offers industry-leading lumen performance at 140,000 lux at 14 inches with an estimated 50,000 hours of life, and no heat generation.
