Easily-Installed Shelf Accessory

Akro-Mils

Akro-Mils introduces the AkroShelf™ — a shelf accessory that attaches to Akro-Mils louvered hanging systems and is wall mountable. The AkroShelf is easily installed — the shelf slides down securely on louvers and can be quickly removed. The shelf also offers the flexibility of being installed bracket up (as a bottom shelf that provides protection from cleaning chemicals) or bracket down (as a top shelf that can provide dust protection). The shelf is constructed of heavy-duty 13-gauge steel, and offers a weight capacity of 50 lbs. per shelf. The 16-gauge steel brackets include mounting holes that allow the entire shelf to be fastened to a wall.
