

Modular Drawer Storage Cabinets

Lista International Corporation

Lista International Corporation offers modular drawer storage cabinets. According to the company, these versatile solutions create a space-efficient workspace which also provides for clean, safe, highly organized storage of hospital supplies and equipment. The cabinet drawers feature either a 440 lb. or 165 lb. load capacity each (depending on drawer size) and are available in 6 different full sidewall heights for maximum cubic storage capacity. Lista's PreventTip® one-drawer-at-a-time safety system prevents accidental cabinet tipping.
