

PerforMAX pOweR Scrub Line

Medline Industries

Medline Industries, Inc. has introduced the PerforMAX pOweR line of long-sleeved scrubs to help reduce the risk of infection by providing a protective barrier between the patient and a healthcare worker's bare arms. The long-sleeves are sewn directly into the short sleeves of the scrub top to create a layered look. Made of the same material as high-performance apparel, the long-sleeves fit snug around the worker's arms and provide the comfort and breathability of athletic wear.
