

# Wireless Data Logger

TandD Corp.

TandD Corp. has introduced the NEW Wireless Data Logger RTR-507/507L. This is a new model in the RTR-500 Series, which enables wide range high precision measurements of temperature and humidity. TandD has achieved a humidity measurement accuracy of  $\pm 2.5\%$ , as well as wide range measurements of temperature from -30 to 80 degrees C and humidity from 0 to 99%RH. By using the RTR-500 Series Base Unit, the recorded data in the RTR-507 not only can be collected via wireless communication, but can also be used for data monitoring, warning monitoring, and data management through networks to construct a data logging system to match the needs and environment of the user.
