

Surgical Instrument Metal Detector

Wizard Industries

Wizard Industries has released the new Wizard 4 Laser Line Surgical Instrument Metal Detector, the first to utilize laser indication. The new tool provides pinpoint accuracy for recovering valuable surgical tools during operating room inspection and surgical drape disposal. Now with twice the detection capability, it is the first of its kind to use a laser line indicator, providing a more effective solution. The improved design means metal medical tools can now be detected with greater ease and precision.
