

Camera For Surgical Loupes And Headlights

VizVocus

LoupeCam (by VizVOCUS)

introduces the new ProHD camera for surgical loupes and headlights. The ProHD camera takes visualization and video recording to a new level by delivering the best viewpoint that matters. This nickel-size camera, weighing only 0.4 oz, offers a 3.0 MP sensor, a built-in microphone and HD video recording 1280x720p directly to your laptop, with support for Windows and MAC (Parallel & VmWare). The USB Footpedals ensure a complete hands-free experience.
