

# Thermedx Hysteroscopic Fluid Management System

Thermedx Fluid Management System

Thermedx Fluid Management System offers its patented fluid delivery methodology that is being utilized at a growing list of hospitals for Hysteroscopic Fluid Management, Urology Fluid Management, and other applications. This is in addition to automatic volume measurement for fluid absorption monitoring, safe pressure ranges for optimal visualization, and on-demand fluid warming for temperature maintenance. As a medical device company focused on perioperative fluid management, Thermedx is helping facilities implement cutting edge “smart pump” technology to improve patient safety practices per AORN recommendations.
