Stirrups

SchureMed

The new Great White Platinum Stirrups from SchureMed have the following notable features:

- Higher Weight Capacity: 600-pound patient vs. 500-pound patient
- Flexible boot to accommodate different size patients
- Three axes of movement: Abduction/Adduction, Lithotomy, and External Leg Rotation
- Handle design allows for better control of the patient's leg
- Handle design protects against accidental release of leg
- Overlapping Pad design to securely hold leg in boot
- Larger boot to comfortably fit larger lower legs
