

## WAFFLE Seat Cushion

EHOB

Available in four sizes (Original, Standard, Pediatric & Bariatric), EHOB's WAFFLE Seat Cushion redistributes a patient's weight, provides comfort, and works to prevent and treat pressure ulcers. The cushion features a unique, low-profile design that contours and cradles surgical patients while in the seat. The WAFFLE Seat Cushion also provides safety and convenience for getting in and out of chairs, and the air venting holes allow heat and moisture to easily dissipate for a higher level of comfort. Most importantly, the WAFFLE Seat Cushion utilizes static-air technology, the ideal media in supporting soft tissue, to aid in the prevention and treatment of pressure ulcers up through Stage IV.
