

Medical Tilt Bin Cart

Medicus Health

Medicus Health announces the release of its new Medical Tilt Bin Cart. It is a two-sided cart with clear bins that makes medical supplies highly visible adhering to hospital lean initiatives. Furthermore, the product is a great storage solution for point of service items that are used every day in operating rooms, laboratories, and doctors' offices. The cart combines (two) 5-Bin, (two) 3-Bin Units, and (four) 4-Bin units into one mobile solution. Handles are located at each end of the cart for transport convenience. Padded corner bumpers keep the cart safe from damage.
