The Pink Pad

Xodus Medical

2013 ESP Award Nominee

Xodus Medical announces "The Pink Pad" (Pigazzi Patient Positioning System) for Steep Trendelenburg Positioning. For use in robotic and laparoscopic colorectal, hysterectomy & prostate procedures, it offers the safest, most effective method in preventing patients from slipping, while also protecting against tissue breakdown, safeguarding against brachial plexus nerve injuries and eliminating risk of cross-contamination. "The Pink Pad" is patented, single-use, latex-free and fire retardant. Setup is easy and saves OR time.
