Video: Begging For Change

Posted on YouTube by Maine's Service Employees union called "Begging For Change." The video, advocating for government-run healthcare, shows fundraising efforts for people struggling with medical bills. Snapshots of signs and posters and photos fade in and out of the video while the "Begging For Change Healthcare Blues" plays in the background. The campaign hopes to collect as many of these images as possible and present them to the state's members of Congress to advocate for immediate action on healthcare legislation.
